

BASIC SLATWALL INSTALLATION INSTRUCTION SHEET

Observe all safety precautions and wear all safety equipment before proceeding.

1. The easiest way to install SLATWALL is from the floor up. Start by locating the wood studs and proceed to install the first piece of SLATWALL. Be sure to level the SLATWALL before screwing them into the wooden studs. NOTE: Be sure to leave a inch gap between the floor and the first row of Slatwall if you are using the baseboard trim.

2. SLATWALL installation.

2. Proceed to install the next SLATWALLS on top the first leveled row. SLATWALLS can be cut horizontally or vertically to accommodate room dimensions. Preferably using an electric saw with a thin sharp blade for SLATWALL cutting.
